Wearing Method

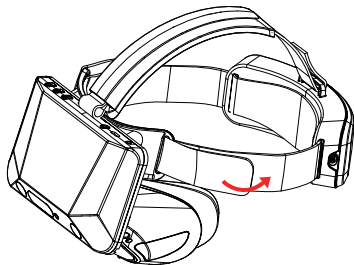

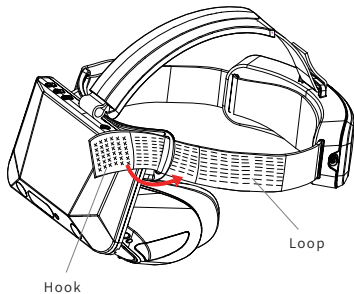

Adjust straps on both sides to fit your head circumference.

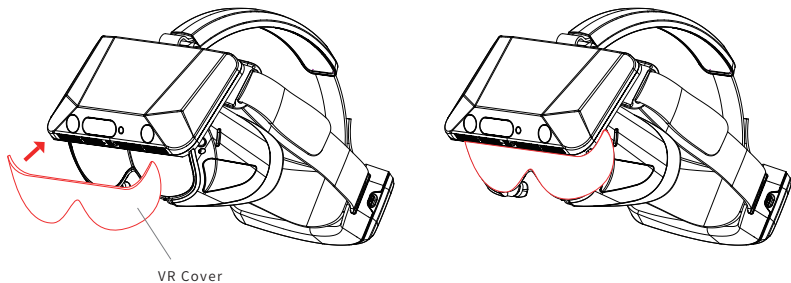

Strap Adjustment

Adjust the position of hook on the loop to fit the head.

Switch Method

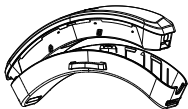

Put VR cover close to the lens and it will be magnetically attached.

Battery Installation and Disassembly

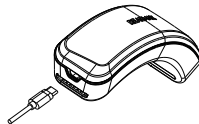

【Installation】

1 . Firstly, insert the hole under the charging port end into the battery compartment socket.

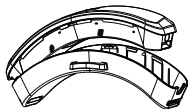

2 . Secondly, center the socket point and move the other end of the battery down until the battery completely enters the battery compartment.

3 . When you heard a snapping sound, the battery is in place.

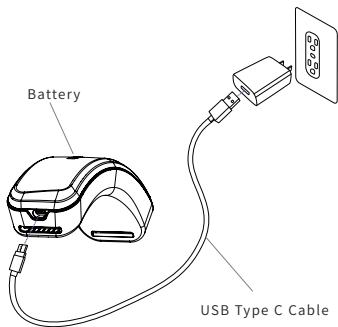

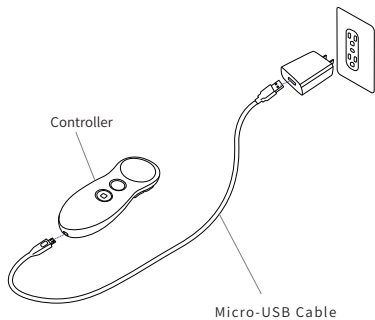

【Battery Disassembly】

Move the toggle switch at the buckle and simultaneously pull the battery up until the battery and battery compartment are completely separated.

Charging

FCC Statement

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF Exposure compliance

The Radiated energy from the antenna conforms to the FCC limit of the SAR(specific absorption rate) requirement regarding 47 CFR Part 2 section 1093

NOTE: Any changes or modifications not expressly approved by the grantee of this device could void the user's authority to operate the equipment.
